Attn: Mr. Tom Dunning

Dear Sir:

On March 27, 1985, Mr. David Wertz and I conducted a hazardous waste inspection of the Ford - Ohio Truck Works located at 650 Miller Road in Avon Lake, Ohio. Mr. Emery Staylon, Mr. Jerry Amber, Mr. James Gibson and you represented this facility during the inspection. The facility was inspected for compliance with both State and Federal regulations for the handling of hazardous wastes. Please note that I did not evaluate your compliance with financial responsibility requirements. That will be handled separately.

The only violation noted during my inspection was your F006 storage lagoons. They are in violation of Generator and TSD hazardous waste regulations. We will contact you in the near future regarding these lagoons.

Thank you for the courtesies extended during my inspection.

Yours truly,

Mark Bergman
